Foodtongue!					Make Chain Mail!			
1000 (Or More!) Paper Cranes				Modular Origami For All		Origami		
	Fanfiction SAT Vocab			Linguistics Problem Solving				

Splash 2013 Walk-Ins

Arts And Craft From Outer Space And Other Places | Sunday 10:30 – 1:30

Think MIT is all about science? Guess again and make cool crafts. Take home your own portable sparkling model of Saturn. Did you think paint was only for paper? Well, we ask what else can we cover with acrylic colors? Stop by, hang out, talk to use about art, science, or ultimate frisbee, take home pretty things to show off to all your friends. If you're a boy, I double dare you to stop by. Don't let girls steal all the creativity!

Basic Card Tricks | Saturday 12:30 – 2:30, 4:30 – 6:30

Card tricks are a great way to get into magic! Come on over and learn some basic card tricks and card maneuvers! Cards provided.

Ever-Expanding Origami Structures | Saturday 11:30 – 2:30

Help grow an Origami Crystal to epic proportions or make your own origami cube! The module and assembly for a Cube with Windows will be taught and possibly some other modules.

Fanfiction SAT Vocab | Saturday 1:30 – 3:30; Sunday 11:30 – 1:30

I will give you a list of SAT vocab words and your job is to write fanfiction (a paragraph or so is fine, but you can write as much as you want) of your choice. I will be posting our results (you can opt out of this) to fanfic-vocab.tumblr.com Come prepared to represent your fandom and learn vocab! Bring a laptop if you can, but if you can't I will have paper/pens for you to write with.

Five-Minute Fandom Debates | Saturday 11:30 – 1:30

Tennant vs. Smith? Hiddleston or Cumberbatch? Marvel or DC? Which Avenger would you rather have as World Dictator? Where would you rather live- Middle Earth or the Wizarding World? You've got opinions, come voice them here, and listen to the ensuing debate. But go fast- you've only got 5 minutes!

Foodtongue! | Sunday 9:30-12:30, 3:30 – 6:30

Yogurt mint cake! Apple oyster Peach-Sauce-Sandwich! What could these random collections of food possibly mean? Come learn Foodtongue, a constructed language where all of the words are food in an immersive learning environment. Beginners and polyglots welcome!

How To Make Bubble Tea | Sunday 5:30 – 6:30

Experience the self-satisfying joy of making your own bubble tea! Choose from a variety of different flavors! Mix bubbles....and tea! Learn about the history of bubble tea and the physics of bubbles.

Learn To Knit | Sunday 9:30 – 11:30

Learn how to knit lace and cables, and get help with your own knitting projects! Materials will be provided; if you'd like to bring your own projects, please do so.

Learn To Play Liar's Dice | Saturday 9:30 – 12:30

At some point in your life (or afterlife), you may find yourself trapped on a cursed ship, doomed to forever serve the infamous Davy Jones in his never-ending journey on the high seas. How can you win your freedom? Challenge him to a game of Liar's Dice of course! Liar's Dice is a fun and interactive game that combines luck, probability, and good old fashioned bluffing, as popularized by Pirates of the Caribbean: Dead Man's Chest: <http://www.youtube.com/watch?v=HoPeqtR5vpc>. Come learn the game, beat your friends, and win some prizes!

LED Creativity Lab | Saturday 4:30 – 5:30

Arts and crafts - with LIGHT! Build miniature lighthouses, figurines with light-up eyes, light up dice, and whatever else strikes your fancy. In the process, learn a bit about basic circuitry. Craft supplies and LEDs in a variety of colors will be provided.

Linguistics Problem Solving | Sunday 1:30 – 3:30

Do you enjoy unraveling logic puzzles, want to learn about other languages, or crave the feeling of a good riddle? Come solve fun problems from the Linguistics Olympiads, NACLO and IOL! A variety of languages, problem styles, and difficulty levels will be provided for you to solve. Logic and reasoning are your main weapon here – no prior linguistics knowledge required!

LN2 Ice Cream! | Saturday 4:30 – 6:30

Do you like ice cream? Come see how ice cream can be made using liquid nitrogen, and learn why it tastes so much better than store bought ice cream.

Make Chain Mail! | Sunday 2:30 – 6:30

Learn to make your own medieval armor! With simple supplies, you can make chain mail jewelry, bags and purses, or start on your own "mithril vest". Come make something to take home with you while supplies last!

Magic: The Walk-In Activity | Sunday 12:30 – 2:30

Come play Magic: The Gathering! Please bring your own deck.

Mathematical Card Castles | Saturday 9:30 – 4:30

We will make card castles like you've never seen them before. In this large-scale collaborative sculpture, we will assemble almost 36 full decks of cards, some metal fasteners, and a bunch of unique mathematical insight into two large, intricate, and mystifying creations. Come be part of this massive undertaking!

Math Scrabble | Saturday 9:30 – 1:30; Sunday 10:30 – 2:30

Imagine a version of Scrabble where players form equations instead of words. Although there are some of these sold in the US market, they are hard to play and not very popular. However, in some countries, this game is polished, standardized, and people actually play this game in national tournaments. We'll play one such tournament-level version. It'll be fun. Did I mention we'll do it life-sized?

Modular Origami For All | Saturday 9:30 – 11:30; Sunday 1:30 – 2:30

Stop by to create some modular origami with us! We'll be ready to teach a variety of modular origami models, so there'll be something to learn for everyone! No folding experience necessary.

Ninjas | Sunday 5:30 – 6:30

Play Ninjas, a game of "one smooth motion".

Not Your Average Cootie Catcher | Saturday 2:30 – 6:30

Come practice the ancient Japanese art of awesome-gami on a whole new level you never knew existed. Modular origami, kusudama specifically, is an amazing, beautiful branch of this craft, folding many parts to put together into one giant ball of awesome. Come and make something totally fantastic with us!

Origami | Sunday 3:30 – 6:30

Come fold things with OrigaMIT, MIT's origami club! We'll provide paper, diagrams and help.

Physics Demos – Fun With Liquid Nitrogen! | Saturday 1:30 – 4:30

Want to have some fun with ferrofluids, or shatter gummy bears and flowers? Come join us as we experiment! We'll be demonstrating these cool effects on a variety of objects.

Pixel Art With Post-Its | Saturday 1:30 – 2:30

Make huge works of art out of post-it notes! Using each individual post-it note as a single color pixel, you can recreate sprites from your favorite retro video games. Choose your design, or create your own, and work as a team to make awesome murals of Pokemon, Mario, and more.

Play Bughouse Chess | Saturday 3:30 – 4:30

Bughouse chess is chess for teams of two with a twist -- all pieces you take are passed to teammates! Come hang out, play chess, and make new friends!

Play SET! | Saturday 9:30 – 11:30

Learn to play SET, a fun and fast-paced game of matching shapes and colors, and practice playing with some new friends.

Rube Against The Machine 2: 2 Splash 2 Furious | Sunday 9:30 – 4:30

HEY GANG! REMEMBER ME? We're doing RUBE AGAINST THE MACHINE again. Last year, you all built a big, (somewhat) working Rube Goldberg Machine. If you don't know what it is, go look it up. THIS YEAR, We're gonna build two of them. And they're gonna each propel a racecar down a hallway. And we're gonna split y'all up into teams and have you work on competing machines, and then they'll race the cars or something. It'll be dope.

SET! | Saturday 4:30 – 6:30

Come play the awesomest game in existence! SET is a game of visual perception and pattern matching. Come to learn how to play and challenge yourself against others!

Spinning Arts Sampler | Sunday 3:30 – 6:30

Come learn the basics of poi, staff spinning, flow wand and possibly other exciting props as well! Drop in anytime, practice props provided.

Tea Tasting! | Sunday 2:30 – 4:30

Come drink some delicious teas from around the world!

Telephone Pictionary | Saturday 5:30 – 6:30

Is that a rampaging dinosaur breathing acid on a girl eating a hot dog? Or is it a dragon trying to make friends with a guy playing a harmonica? It's like the game of Telephone, on paper, with steps alternating words and pictures.

The Paper Airplane Workshop | Saturday 12:30 – 2:30

We give you paper, you make it fly! If you don't know how to fold paper airplanes or want to learn new folding designs, we'll teach you.

The Pokeymanz Project! | Saturday 2:30 – 4:30

How much do you love Pokemon? How good do you think your describing skills are? Come test both of these skills out and watch as hilarity ensues in the Pokeymanz Project!

1000 (Or More!) Paper Cranes | Sunday 9:30 – 1:30

We are going to make 1000 paper cranes in this walk in class! Don't worry, if you don't know how to fold an origami crane, I will show you!
